# MESSAGE FROM YOUR BOARD OF DIRECTORS

Welcome to the 2018 Technology and Diversity for Charity Gala! This event brings together technology professionals and sponsors throughout the valley to celebrate the holidays while providing an opportunity to give back to those in need within our community. Last year we raised a record \$60,000 for the selected community charities in addition to over 750 toys donated to the KLUC Toy Drive benefiting local families with donations. Please don't forget to take a walk through our silent auction and the raffle as 100% of these funds go directly to our charitable partners. Also, please take a moment to thank the representatives from each of the charitable organizations we have partnered with tonight. Each of their efforts make a difference in the lives of the children of our community.

We are supporting the following charities with the 2018 event: Project 150, ITWorks, NCWIT, and the Project 150 Secret Santa Program. All proceeds from the silent auctions and raffles go to these charities.

As we continue to have record breaking events, we must thank the professional associations who co-host this annual event. We also want to share our gratitude with our sponsors for your continued generous support. Please keep this program and remember to thank and support these companies throughout the year.

We look forward to spending the evening with you and seeing you again next year. Wishing you all a joyous holiday season and a happy and healthy New Year!

– The Technology & Diversity for Charity Board Members

*Happy  
Holidays!*

# SECRET SANTA PROGRAM

This year, the toy drive will benefit the Project 150 Secret Santa Program, which helps make the holidays brighter for the families of homeless teens. Donors are encouraged to donate unwrapped toys for children of any age, gift cards, and hooded jackets sized for teens.

## PROJECT 150

Project 150 is a 501(c)3 non-profit charitable organization organized in December 2011 when the founders heard about 150 homeless high school students at Rancho High School in Las Vegas that were in need of support over Christmas break. Project 150 currently serves more than 6,000 high school students in need: 3,300 registered homeless and 3,100 non-registered homeless, displaced, and disadvantaged high school students at 58 high schools in southern Nevada. In addition, Project 150 serves students in need at 20 high schools in Reno. High School is Tough Enough without the worry about where to sleep at night. Project 150 was created from the community's desire to help these kids. The mission is to offer support and services to homeless high school students so they have what they need to continue school and be successful in life.

# NCWIT

The National Center for Women & Information Technology (NCWIT) is a non-profit community of more than 1,100 universities, companies, non-profits, and government organizations nationwide working to increase girls' and women's meaningful participation in computing. NCWIT equips change leaders with resources for taking action in recruiting, retaining, and advancing women from K-12 and higher education through industry and entrepreneurial careers.

Change is happening. The NCWIT change-leader network represents the largest, rapidly growing community in support of improving diversity and inclusion in computing. NCWIT program outcomes show members making collective progress, moving the national needle in quantifiable ways.

## HELP CHANGE A YOUNG PERSON'S LIFE.

ITWorks is offered free of charge to young adults, 18-26, who need a chance for a career. A career that can provide them with a future. A career in technology.

Prior to entering the program, our students are typically unemployed or underemployed, with the majority earning less than \$14,000 per year.

They emerge from ITWorks with industry-recognized certifications, hands-on experience, and the professional skills and network they need to compete for jobs in technology – jobs that will boost their income potential for life.
