*Holiday
Gala*

Friday, December 9 • 5:30 to 9:30 pm

Caesars Palace Las Vegas • Julius Ballroom

3570 Las Vegas Boulevard South
Las Vegas, Nevada

Message from your Board of Directors

Welcome to the 2022 Technology and Diversity for Charity Gala! This wonderful event brings together technology professionals and sponsors throughout the United States to celebrate the holidays while providing an opportunity to give back to those in need within the local community. Our last event in 2019 was one of our most successful events to date, along with giving Project 150 over 700 toys!

Please take a walk through our silent auction and the raffle as 100% of these funds go directly to our charitable partners. Also, please take a moment to thank the representatives from each of the charitable organizations we have partnered with tonight. Each of our sponsors have made a difference in the lives of the children of our community.

We are supporting the following charities with tonight's event: Project 150, Nevada Child Seekers, Junior Achievement of Southern Nevada, ITWorks, and Young Artists Orchestra of Las Vegas.

We look forward to spending the evening with you and seeing you again next year.

Wishing you a all a joyous holiday season and a happy and healthy New Year!

YOUNG ARTISTS ORCHESTRA

Youth Artists Orchestra (YAO) offers a variety of high-level music

ensembles for the students and young professionals of Southern Nevada. Our students are exposed to professional caliber music that challenges them and allows them to grow as young artists.

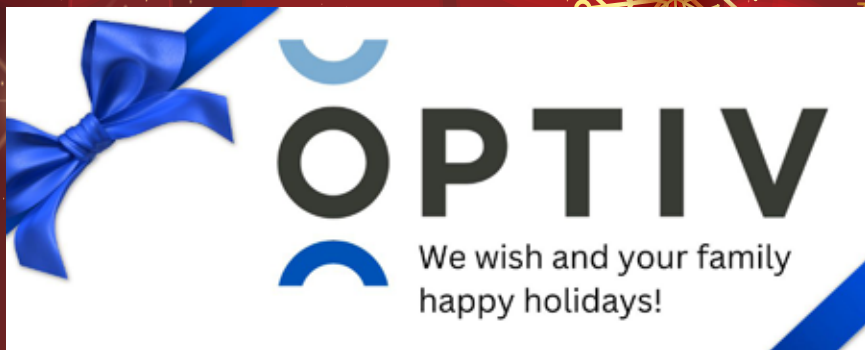

Regardless of background and wealth, we acknowledge and reward talent, hard work, and dedication. Students in our music and entrepreneur programs learn and develop basic life skills and discipline required to become successful citizens.

HELP CHANGE A YOUNG PERSON'S LIFE.

ITWorks is offered free of charge to young adults, 18-26, who need a chance for a career. A career that can provide them with a future. A career in technology.

Prior to entering the program, our students are typically unemployed or underemployed, with the majority earning less than \$14,000 per year.

They emerge from ITWorks with industry-recognized certifications, hands-on experience, and the professional skills and network they need to compete for jobs in technology – jobs that will boost their income potential for life.
